

The screenshot displays a medical software interface for scan review. On the left is a navigation sidebar with icons for Worklists, My Patients, History, Scan Review, Reporting, Dashboard, Practice, Status, Patho. Tree, and Help. The main area is divided into several sections:

- Patient Information:** Name: ALL SCANS, Patient; Sex: Male; NHS: 123 456 7890; DOB: 01 Jan 1901; Ethnicity: White - British; Patient ID: 123 456.
- Annotations:** A section for adding notes, currently empty.
- Diagnosis:** A list of conditions with status indicators (e.g., 'No suspicion of Diabetic maculopathy').
- New Diagnosis:** A search bar and a list of differential diagnoses including Retinal detachment, Aqueous cells, and Aqueous flare.
- Condition Details:** A section for 'Retinal detachment' with fields for Stage (Rhegmatogenous retinal detachment macular ON), Indicators (Tear in the retinal st..., Subretinal fluid sep...), and Status (New).
- Scan Review:** The central part of the interface shows a retinal scan image. The top right of this section indicates 'OS Sep 12, 2018 2:56:22 PM'. A legend on the right side of the scan image lists layers: ILM, RNFL, GCL, IPL, OPL, ELM, PR1, RPE, and BM. Below the scan image is a row of thumbnails for other scan types: Indus, Macula Cube, Optos, External Ey..., CorneaRadi..., Visual Field..., Fundus, and ONH.
