9th Bi-annual International Conference on Naturalistic Decision Making (NDM9)

BCS London

23 - 26 June 2009

Editors:

B.L. William Wong

Neville A. Stanton

Abstract

Jointly organised with the BCS Interaction Specialist Group

Naturalistic Decision Making (NDM) encapsulates the problems and challenges associated with making decisions in demanding situations. These decisions are often dependent on, or supported by, computing technology. The conference focuses on contemporary research on NDM where interaction with computing technology is an essential feature.

Main sponsors:

US Army USAITC-A

UK MoD's Human Factors Integration Defence Technology Centre (HFI-DTC)

Ashgate Publishing Ltd

Other sponsors:

BCS Interaction SG

Southampton University

Middlesex University

Editors

This conference was edited by:

B.L. William Wong - Interaction Design Center, School of Engineering and Information Sciences, Middlesex University

Neville A. Stanton - Transportation Research Group, School of Civil Engineering and the Environment, University of Southampton

Conference Committee

Conference committee members are listed below.

Co-Chairs

Neville Stanton (University of Southampton)

William Wong (Middlesex University)

Scientific Programme Chairs

Neville Stanton (University of Southampton)

William Wong (Middlesex University)

Michael Strub (US ARL / DSTL)

Nick Sevdalis (Imperial College)

Julie Gore (University of Surrey)

Fundraising

Michael Strub (US ARL / DSTL)

Student Volunteers

Nick Sevdalis (Imperial College)

Doctoral Consortium

Julie Gore (University of Surrey)

Website

Neesha Kodagoda (Middlesex University)

Social Programme

Gaby Mancero (Middlesex University)

Laura Raffety (Brunel University)

Conference Secretariat

Rachel Browning (BCS)
